Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The matter common to the inventions according to claims 1 to 13 is "a wastewater treatment apparatus for treating a wastewater containing a substance being difficult to decompose, which comprises a wastewater treatment tank for treating a waste water and an oxidizing agent addition device for adding an oxidizing agent to said wastewater treatment tank". This matter is known to the public before the priority date of the present international application, as disclosed in each document cited in this international search report, and therefore is not "special technical feature" in the meaning of PCT Rule 13.2.
(continued to extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1 - 3 and 5 - 7

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

Continuation of Box No. III of continuation of first sheet (2)

Further, "a wastewater treatment apparatus for treating a wastewater containing a substance being difficult to decompose, which comprises a wastewater treatment tank for treating a waste water, an oxidizing agent addition device for adding an oxidizing agent to said wastewater treatment tank, an alkali agent addition device for adding an alkali agent to the wastewater treatment tank, and an ultraviolet ray irradiation device for the irradiation of an ultraviolet ray" is also known to the public before the priority date of the present international application, as disclosed in each document cited in this international search report, and therefore is not "special technical feature" in the meaning of PCT Rule 13.2.
